

Sherifdeen Ishola

Frontend Developer

Dynamic Frontend Developer skilled at creating superb user interfaces, building quality products, and possessing strong creative thinking skills, high energy, and integrity. My technical skills revolve around developing user-friendly and responsive web applications using the best frontend technologies and frameworks.

EXPERIENCE

Forcythe, Lagos, Nigeria — *Lead Frontend Engineer*

FEB 2024 - AUG 2024

- Developed Frontend with React: Designed and implemented a user-friendly interface using React, ensuring smooth and responsive user interactions.
- State Management with Zustand and Context API: Utilized Zustand and Context API to manage application state efficiently, providing a seamless user experience.
- Integrated Mapping Functionality: Implemented interactive maps to display event locations, enhancing user navigation and event discovery.
- Built an Inbuilt Chat System: Developed a real-time chat system within the application, allowing users to communicate and engage directly through the platform.
- Implemented Event Filtering: Created a dynamic filter component to sort events by weekly, monthly, and custom options, improving event searchability and user experience.
- Ensured Responsive Design: Ensured the application is fully responsive and optimized for various devices and screen sizes, providing a consistent user experience across platforms.

Arctively, Contract — *Frontend Web Engineer*

SEP 2023 - NOV 2023

- Collaborated on the development of a dynamic PHP-based web application for automatically creating invoice for orders.
- Utilized HTML, CSS, and Tailwind CSS to create a modern and responsive user interface ensuring optimal user experience across various devices.
- Integrated JavaScript and jQuery to enhance user interactivity and provide seamless navigation throughout the application.
- Implemented a customizable invoice design feature, allowing users to personalize their invoices using a variety of options such as color schemes, fonts, logos and stamps.
- layed a key role in dynamically updating the template and visual elements of the application based on user selections, using jQuery for efficient DOM manipulation.

SKILLS

JavaScript, React, Redux, jQuery, HTML5, CSS3, SASS, Bootstrap, Material UI, React, Tailwind CSS, Next.js, Chakra UI, EJS, NextJs,

TOOLS & METHODS

Figma, ClickUp, Git, GitHub, Heroku, Netlify, Mobile/Responsive Development, TDD, Scrum, Chrome Dev Tools, Jest, Firebase, Jira, Developer Tools, Security Checks, Risk Analysis, User Experience, Agile, Scrum, Communication, Collaboration, Time Management, Research, Problem solving, Optimization, Presentation, Active Listening

Professional:

Remote pair programming, teamwork, mentoring, customer service, strong background in project management

- Successfully resolved performance issues by optimizing code and implementing best practices, resulting in a more streamlined and efficient web application.

Codeloopz, Lagos, Nigeria — Frontend Web Engineer

JAN 2023 - DEC 2023

- Developing engaging real estate app using React, Redux, HTML, CSS and ClickUp.
- Expanding features, refining code, and improving processes, producing smooth operations and enhancing user engagement
- Ensuring efficient web development by supporting designers & developers while resolving website performance issues.
- Conducted thorough testing and debugging of front-end components to ensure the highest quality standards and a bug-free user experience.
- Applied responsive design principles, ensuring cross-browser compatibility and optimal performance on various devices.

Dynamics and Adept , Lagos, Nigeria — Fullstack Engineer

DEC 2021 - DEC 2022

- Enhanced Code Quality: Implemented code organization improvements to boost code quality and overall performance, maintaining clean and readable code.
- API Integration: Collaborated with the backend team to seamlessly integrate APIs, ensuring smooth functionality across the application.
- Monitoring Interface Development: Developed a monitoring interface for a financial application running on the TIANYU P30 Android POS device.
- EJS Template Engine Utilization: Utilized the EJS template engine to create dynamic and reusable templates, improving development efficiency and consistency.
- UI/UX Optimization: Provided strategic advice and performance tips to the UI team, ensuring optimal performance and user experience.
- Dashboard Development: Designed and implemented an intuitive and interactive dashboard, providing real-time data visualization and insights for enhanced decision-making.

EDUCATION

Udacity, CA

2020

Full Stack Web Development

Free Code Camp, CA

2020

JavaScript Algorithms and Data Structures

Kwara state university, Malete — B.Sc

2017 - 2021

Second Class Honors in Accounting
