EXPERIENCE

Dynamics and Adept — Hybrid
ReactJS Developer — Jan 2021 - Present
- Proposed improvements to code organization to improve code quality and overall performance to maintain clean & readable code
- Collaborated with the backend team to integrate APIs and ensure seamless functionality.
- I worked with the development team to build a monitoring interface for a financial application that runs on the TIANYU P30 Android POS device
- Provided advice and tips to the UI Team for best performance
- Translated UI/UX designs into responsive and interactive web interfaces

The Garland Realty (Contract) — Remote
Lead Frontend React.js Developer — Nov 2022
- Developing engaging real estate app using React, Redux, HTML, CSS, ClickUp, Detox, Jest, and GitHub Actions
- Expanding features, refining code, and improving processes, producing smooth operations and enhancing user engagement
- Ensuring efficient web development by supporting designers & developers while resolving website performance issues

Blockchain Labs — Hybrid
Intern Backend Node.js Developer — Feb 2022 - July 2022
- Worked with backend data processes with Node.js, API, JavaScript, Bootstrap, HTML & CSS, jQuery, Google Maps, MongoDB and MySQL
- Ensured code was clear and maintainable
- Identified and fixed bugs to ensure good performance
- Introduced to Scrum methodology to make rapid, continuous improvements to products based on learning through in-market customer testing
- I was mentored by senior developers and they shared the latest information, tools, and techniques with me

Alphalaah Logistics — Remote
Frontend React.js Developer (Volunteer) — July, 2020 – Jan, 2021
- Translated UI/UX designs into responsive and interactive web interfaces.
- Implemented best practices in frontend development, including clean code and performance optimization.
- Remote pair programming with a frontend react developer in order to be able to meet the deadline for the project.

Success Achievers Academy — Lagos, Nigeria
Math Teacher — Nov 2015 - Sept 2017
- Prepared math lesson plans as per the grade levels
- Explained mathematical concepts in easy and understandable terms to the students
- Used real-life examples to teach geometrical concepts
- Developed students' interest in mathematics
- Planned and creating teaching materials
